

# Long Lasting Emergency Portable Power Station 1000 Times DC Output

## **Basic Information**

Brand Name: TIANJIN TOEC HUADIAN TECHNOLOGY

CO., LTD

Model Number: HD36

# **Product Specification**

Battery Capacity: 16000mAH/20000mAh

• Power Features: TYPE-C Charging Input /PD Output:

5V3A,/9V3A/12V3A/15V3A/20V5A 5V3A/9V3A/12V3A/15V3A,/20V5A USB1: QC3.0/5V3A/9V2A/12V1.5A USB2:5V/2A DC

Output: 12V-16.8V8A

Peak Current: 1000A/1200A

• LED Lights: Constant, Strobe, SOS

Shell Flame Retardant
 V0

Grade:

Operating Temperature: -30 -65Product Net Weight: About 600g

Product Packaging: Toolbox

• Highlight: Emergency Portable Power Station 1000 Times,

Long Lasting Emergency Portable Power

Station

, portable emergency power 1000 Times

#### **Product Description**

We usually export large quantities to foreign countries. Hope to find more trade partners.

High magnification polymer lithium-ion automotive emergency starting power supply

HD36 is a portable, outdoor emergency, and long-lasting automotive emergency power supply that complies with American AC power standards. It uses a high magnification polymer lithium-ion battery and is suitable for household emergency power, outdoor travel, emergency relief, outdoor work, and other occasions.

The battery capacity of this product is 20000mAh, using an IC intelligent protection chip that intelligently matches the voltage and current of the car. It has nine effective protections (polymer lithium battery, constant current protection, voltage stabilization protection, overshoot protection, anti backflow protection, temperature protection, short circuit protection, overcurrent protection, and over discharge protection) to ensure battery stability. It is suitable for 12V diesel gasoline vehicles, with unlimited models, fearless displacement, bidirectional fast charging, high-power output, and long-lasting durability. Car refrigerators, car vacuum cleaners, and other car appliances can all be used.

#### General specifications

| deneral specifications      |  |
|-----------------------------|--|
| General specifications      |  |
| Built-in battery            | High rate polymer lithium battery                      |
| Battery capacity            | 20000mAh   |
| Product Features            | Display &PD&QC3.0&DC output                            |
| Power Features              | TYPE-C input: 5V/2A/9V2A                               |
|                             | USB output: 5V/2A/9V2A/12V-1.5A                        |
| Starting current            | 500A/600A  |
| Peak current                | 1000A/1200A  |
| LED Lights                  | Constant, Strobe, SOS                                  |
| lifecycle                   | >1000 times  |
| Fully charged time          | 3-4H   |
| Shell material              | PC   |
| Shell Flame retardant grade | V0   |
| Operating temperature       | -40 -80  |
| Product dimension           | 192*88*44mm(LWH)                                       |
| Product net weight          | about 600g   |
| Product color matching      | Can be freely matched by customers (quantity required) |
| Product packaging           | toolbox  |
| Tool box dimension          | 20.5*22.5*5.5cm (LWH)                                  |
| Accessories(Default)        | Intelligent jump cables                                |
|                             |  |

- 1. Helps improve the lifespan of mobile power supplies: When not in use, do not plug the device into an AC power outlet.
- 2. If you want to store a solar powered mobile power source for a long time, please do not connect the device to reduce its self consumption after charging it; When not using the mobile power supply, be sure to place it in a cool and dry place.
- 3. Please note that the mobile power supply must not be short circuited to avoid unnecessary losses, such as equipment malfunctions, smoking, or fires.
- 4. If the plug of the charger is loose or the casing is damaged, it must not be used again! Otherwise, electric shock, short circuit, or fire may occur.

### Application

Can quickly start the car. Its function is similar to traditional batteries, but it has a larger capacity and can provide greater current output. Suitable for emergency household electricity use, outdoor travel, emergency relief, outdoor work, and other occasions.
