## Product Description

We usually export large quantities to foreign countries. Hope to find more trade partners.

With 85W power and an impressive 8000LM luminous flux, these headlights deliver exceptional brightness for enhanced visibility on the road.

Crafted from aviation aluminum for the housing, they boast durability and excellent heat dissipation, aided by high - speed mute fans and two copper heat pipes.

Equipped with auto - class LED modules and a color temperature ranging from 5700K to 6500K, they provide clear and natural lighting.

Suitable for DC12 - 24V input voltage, with start power at  $85W \pm 10\%$  and stable power at  $65W \pm 10\%$ , they offer reliable performance.

Plus, they meet EU ECE R10 regulations and come with features like super heat dissipation, auto - class power supply, and customized high - temperature resistance fans.
