

Professional Design And Manufacturing Of Hydraulic Cylinder

Basic Information

- Brand Name: TIANJIN TOEC HUADIAN TECHNOLOGY CO., LTD
- Model Number: HD-C002

Product Specification

- Highlight: Manufacturing Hydraulic Cylinder, Professional Design Hydraulic Cylinder

Product Description

We usually export large quantities to foreign countries. Hope to find more trade partners.

General specifications:

1. Material: CK20; CK45; 27SiMn; 20MnTiB
2. Length: ≤3000mm
3. Diameter: 40mm-350mm
4. Heat treatment: temperHB260-300
5. Corrosion prevention: plated Cr; Soluble Cu

Application:

Road machinery
Construction machinery
Hoisting machinery
Excavator/scrapper machinery
Agricultural machinery
Mining machinery
Metallurgical equipment
Special vehicle
Customer ordered

Our advantages:

Independent design and calculation
Good knowledge of the specialty
Reliable processing technology
Serious attitude and good capability
Perfect quality management system
Highly recommended as a honesty company
Provide custom made manufacturing service according to specific requirement

Main processing equipment:

Honing machine:

Boring and extrusion machine:

Friction welding machine:

Numerical control machine:

Ring seam welding machine:

Automation nozzle welding machine:

CNC:

Vturn-26:

Test station:

Factory Price + Senior Design and Production Team + Adequate Supply Capacity + Professional Quality Control + Punctual delivery time

Customized common questions:

Q1. What does your company do?

A: We are a supplier of high quality hydraulic cylinders and cylinder components.

Q2. Are you a manufacturer or a trading company?

A: We are a manufacturer.

Q3. How long has your company run in Hydraulic Fields?

A: Over 50 years.

Q4. How to get a quotation?

As our products are non-standard products, we need customers to provide specific drawings for quotation.

The raw materials used, difficulty of processing, quality requirements, quantity demanded and type of packaging will all have an impact on the price. The more detailed the information you provide, the more accurate our quotation will be.

Q5. How long is your delivery time?

A: The delivery time depends on the raw materials used, difficulty of processing, quantity demanded, type of packaging and other factors. But we will do our best to meet customer requirements.
