

Multiple Interfaces Off Grid Power Station For Outdoor Activities And Emergencies

Our Product Introduction

for more products please visit us on outdoorpower-station.com

Basic Information

- Place of Origin: CHINA
- Brand Name: TIANJIN TOEC HUADIAN TECHNOLOGY CO., LTD
- Model Number: HD-BJ1000W

Product Specification

- Car Charging Output: 12V/10A
- USB1: QC3.0/18W 5V
- USB2: 5V/2.4A*4 Max.12W
- Output Wave: 1500W Pure Sine Wave
- AC Output: AC100-240V Pure Sine Wave
- AC Output Frequency: 50HZ/60HZ
- Highlight: **Multiple Interfaces Off Grid Power Station,
Outdoor Activities Off Grid Power Station,
Emergencies Solar Power Station For Camping**

Product Description

We usually export large quantities to foreign countries. Hope to find more trade partners.

This is a portable power station, commonly used to provide power support for various electronic devices. As shown in the image, this power station is equipped with multiple interfaces, including AC outlets and USB ports, catering to the charging needs of a wide range of devices.

The portable power station shown is a versatile and reliable source of backup power, ideal for outdoor activities, emergencies, or off-grid living.

In earthquake and tsunami-prone areas, it can form a small power generation system with solar panels to meet emergency electricity demand.

5 Output Ports Bidirectional Inverter Charge 13 Devices At The Same Time

Widely compatible, provides AC/DC/USB/Type-C/car charger with 5 output ports, which can charge/power 13 devices at the same time to meet the simultaneous use of a variety of electrical digital devices.

1000W 1089Wh wireless charger

Car Charging Output 12V/10A
LED Light
LCD Screen
TYPE-C Output PD100W/PD27W
DC Input Solar Input
USB-A Output*6 5V/2.4A 12W*4 QC3.0 18W*2
DC5521 Output*2 12V/5A
AC Output*2 AC220V 50Hz

Product Parameters

Dimension	Length 340 * Width 238 * Height 205 mm
Shell Material	Main body: Plastic Plastic part: ABS+PC V0 grade fireproof material
Battery	Lithium ternary 21700 5 parallel 12 series single 30000mAh 1089Wh Rated voltage: 43.56V
Charge	DC charging DC5530/Anderson interface 11-36V 10A 200W AC power 1000W Full time about 2.2 hours
DC Output	USB1: QC3.0/18W 5V/3A 9V/2A 12V/1.5A*2 USB2: 5V/2.4A*4 Max.12W Type-C1: PD100W 5V/3A 9V/3A 12V/3A 15W/3A 20V/3A Max.5A Type-C2: PD27W 5V/3A 9V/3A 12V/2.25A Wireless charging: Support 15W wireless charging Cigarette lighter output: DC 12V 10A*1 DC5521 output: 12V/5A*2
AC Output	Voltage: AC110-240V \pm 10V Pure sine wave Frequency: 50HZ/60HZ Rated power: 1000W Peak power: 2000W Need to adjust the output frequency of AC 50HZ/60HZ by pressing the button (switch by pressing fast three times continuously)
Screen	Input and output power display According to the actual use of the system digital display
Illuminated Lamp	1-3W White LED Light
Buttons	1. Power on button: any buttons to switch on and off the machine 2. AC switch: turn on and off AC output 3. DC switch: turn on and off DC output 4. Illumination button: turn on and off the illumination light 5. USB switch: turn on and off USB output and wireless charging output
Protection	OverCharge, Overdischarge, Overvoltage, Overcurrent, DC AC BMS independent overcurrent short-circuit over-temperature protection, AC primary and secondary over-temperature protection

1000W high power Suitable for various scenarios

Weekend outing

Live broadcast and shooting

Outdoor work

Family emergency

The large capacity keeps you from worrying about electricity

about **22.5** hours
Tablet PC (40W)

about **60** times
Smartphone (4000mAh)

about **15** times
Laptop (60Wh)

about **22** times
Drones (40Wh)

about **0.9** hours
Electric drill (1000W)

about **56** times
SLR camera (16Wh)

about **5** hours
Projector (180W)

about **90** hours
Floodlight (10W)
