

3.5KW/7KW Mobile EV Charger with 5M Cable and LED Display

Our Product Introduction

for more products please visit us on outdoorpower-station.com

Basic Information

- Brand Name: TIANJIN TOEC HUADIAN TECHNOLOGY CO., LTD
- Model Number: HD-OL-TYPE2

Product Specification

- Output Current: 16-32A
- Output Power: 7KW
- Input Voltage: 110V-250V
- Length: Custom 5/6/7m
- Operating Temperature: -30 ~+50
- IP Grade: IP 55
- Highlight: 3.5KW mobile EV charger with LED display, 7KW portable EV charger with 5M cable, mobile EV charger with LED screen

Product Description

We usually export large quantities to foreign countries. Hope to find more trade partners.

Portable EV Charger: Your Ultimate Charging Companion on the Road

Are you tired of being restricted by the scarcity of charging stations for your electric vehicle? Our Portable EV Charger is here to revolutionize your charging experience, providing you with the freedom and flexibility to charge your EV whenever and wherever you need.

Exceptional Versatility

Our Portable EV Charger is compatible with a wide range of electric vehicles, including Tesla and those with Type 2 and J1772 connectors. This means you don't have to worry about whether your car will be able to charge at a particular station. Whether you're at home, at work, or on a road trip, this charger has got you covered.

Adjustable Charging Power

With adjustable output power ranging from 3.5kW to 9.6kW, you can customize the charging speed to suit your needs. If you're in a hurry, you can opt for a higher power setting to get a quick charge. If you have more time, a lower power setting can be used to extend the life of your battery.

Intelligent Charging Management

The charger comes with a user-friendly LED screen that displays real-time charging information, such as current, voltage, and charging time. You can also set a reserved charging time to take advantage of off-peak electricity rates, helping you save money on your charging costs.

Robust and Durable

Built to withstand the rigors of daily use, our Portable EV Charger features a durable TPU cable and a rugged design. It has an IP55 protection rating, making it resistant to dust and water, so you can use it in all kinds of weather conditions.

Advanced Safety Features

Safety is a top priority with our Portable EV Charger. It comes equipped with multiple protection features, including over-current protection, over-voltage protection, short-circuit protection, and overheating protection. These features ensure that your vehicle and the charger are always safe during the charging process.

Easy to Use

The charger is incredibly easy to use. Simply plug it into a compatible power source, connect it to your vehicle, and you're ready to start charging. The intuitive interface and clear instructions make it accessible to everyone, regardless of their technical expertise.

TYPE 2 PORTABLE EV CHARGER
