

GBT 3.5KW Portable EV Charger 16A 110V-240V Black

Our Product Introduction

for more products please visit us on outdoorpower-station.com

Basic Information

- Brand Name: TIANJIN TOEC HUADIAN TECHNOLOGY CO., LTD
- Model Number: HD-OL-MODE 2

Product Specification

- Power: 3.5KW
- Rated Current: 16A
- Voltage: 110V/120V/240V
- Color: Black
- LED Indicators: Yes
- Certificate: FCC CE
- Highlight: 3.5KW portable EV charger,
16A mobile EV charger,
110V-240V portable car charger

Product Description

We usually export large quantities to foreign countries. Hope to find more trade partners.

GBT Portable EV Charger: The Future of EV Charging Is Here

As electric vehicles continue to gain popularity, the need for efficient and reliable charging solutions has never been more pressing. Our GBT Portable EV Charger is at the forefront of this revolution, offering a host of innovative features that make it the ideal choice for EV owners.

Cutting-Edge Technology

Our GBT Portable EV Charger is equipped with the latest charging technology, ensuring that your vehicle is charged quickly and efficiently. The GBT connector provides a stable and secure connection, while the 3.5KW power output and 16A rated current ensure that your vehicle is charged in a timely manner.

Smart Charging

With LED indicators, our GBT Portable EV Charger keeps you informed about the charging status of your vehicle. You can easily monitor the progress of your charge, ensuring that your vehicle is ready to go when you are.

Universal Compatibility

Our GBT Portable EV Charger is designed to work with a wide range of electric vehicles. Whether you have a Tesla, a Nissan Leaf, or any other electric vehicle, this charger is compatible with your vehicle's charging port.

Comprehensive Safety Features

Safety is a top priority with our GBT Portable EV Charger. It comes equipped with multiple safety protections, including short-circuit protection, leakage protection, overload protection, ground protection, lightning protection, overvoltage protection, double temperature rise protection, and hot plug protection. These features ensure that your vehicle and the charger are always safe during the charging process.

User-Friendly Design

Our GBT Portable EV Charger is designed with the user in mind. It requires no installation, making it incredibly easy to use. Simply plug the charger into a wall outlet, connect it to your vehicle, and you're ready to start charging. The compact and lightweight design makes it easy to carry and store, so you can take it with you wherever you go.

Durable and Reliable

Built to last, our GBT Portable EV Charger is made from high-quality materials that can withstand the rigors of daily use. The durable construction ensures that it will provide reliable performance for years to come.

Certification and Compliance

Our GBT Portable EV Charger is FCC and CE certified, ensuring that it meets the highest standards of quality and safety. You can trust that this charger will provide a safe and efficient charging experience for your electric vehicle.

Eco-Friendly

By choosing our GBT Portable EV Charger, you're not only investing in a convenient charging solution but also contributing to a greener planet. Electric vehicles produce zero emissions, and with this charger, you can ensure that your vehicle is charged using clean energy.
