Product Description

We usually export large quantities to foreign countries. Hope to find more trade partners.

GB/T - Compliant EV Charger: Elevate Your Charging Experience

Perfect Fit for Domestic Standards

Designed strictly to **GB/T (Domestic version)** specifications, our EV charger is a game - changer for China's electric vehicle ecosystem. It offers two power options: **3.5KW (16A rated current)** and **7KW (32A rated current)**, catering to diverse charging needs—from home EV owners to commercial fleets. Operating at **220V±20%**, it integrates seamlessly with China's power grids, ensuring stable and efficient energy delivery.

Standout Features

1. Smart & Convenient Start Modes

Enjoy the simplicity of **Plug&Play for instant charging** or the flexibility of **Bluetooth APP control** for remote operations. Whether you're in a hurry at home or managing a fleet at a commercial station, charging becomes effortless.

2. Flexible & Durable Design

- **Customizable Cable:** A standard **5M cable** (length customizable) adapts to any space—garages, parking lots, or public stations. No matter the layout, your EV connects with ease.
- **Compact Control Box:** Measuring **2207745mm (HWD)**, it saves installation space while housing robust components. Built to last, even in high - demand environments.

Top - Tier Safety & User Experience

1. IP54 Protection Grade

Dust - proof and splash - resistant, our charger thrives in harsh conditions—outdoor rain, indoor spills, or dusty garages. It's your reliable charging partner, come rain or shine.

2. Comprehensive Safety Safeguards

Equipped with 10+ protection functions (low/high voltage, overcurrent, short - circuit, etc.), it shields your EV and ensures worry - free charging. Your vehicle and peace of mind are always protected.

3. Intuitive Display

RGB/LED indicators + a digital screen show real - time charging status—speed, errors, progress. Stay informed at a glance, making every charge transparent and hassle - free.

Brand - Building Customization

Stand out in the market with **OEM options**:

- Custom plugs and brand LOGO integration to match your brand identity.
- Features like current switch, time delay, full - stop charging for tailored user experiences.
- Screen - displayed charging status to add a premium touch.

Perfect for EV manufacturers, charging networks, or retailers—create a charger that's uniquely yours while meeting GB/T compliance.

Why Choose Our GB/T Charger?

It's more than a charger—it's a **GB/T - compliant, smart, and adaptable solution** powering China's EV future. Whether you're serving home users, commercial fleets, or public stations, it delivers efficiency, safety, and brand value.
