

European Standard Type 2 EV Charger The Ultimate Solution for EV Charging Across Europe

Our Product Introduction

for more products please visit us on outdoorpower-station.com

Basic Information

- Brand Name: TIANJIN TOEC HUADIAN TECHNOLOGY CO., LTD
- Model Number: HD-MRS-Q2AT

Product Specification

- Rated Power: 1.92KW/3.84KW/7.6KW/9.6KW
- Rated Voltage: 85V-265V
- Rated Current: 16A/16A/32A/40A
- Cable Length: 5M
- Display Mode: RGB/LED
- Protection Rank: IP54
- Highlight: Type 2 EV charger Europe, European standard EV charger, mobile EV charger with warranty

Product Description

We usually export large quantities to foreign countries. Hope to find more trade partners.

American Standard Type 1 EV Charger: Powering Your EV Fleet in the US

Built for the American Market

Our American Standard Type 1 EV Charger is engineered to meet the unique needs of the US electric vehicle ecosystem. It offers a range of power outputs: **1.92KW (16A)**, **3.84KW (16A)**, **7.6KW (32A)**, and **9.6KW (40A)**. Whether you're charging a personal electric car at home or managing a commercial fleet, there's a power option to match your needs. Operating within the **85V - 265V** voltage range, it integrates seamlessly with US power grids for reliable, consistent charging.

Key Features for Superior Charging

1. Dual - Mode Convenience

Charge your EV with ease using **Plug&Play** for instant power – just connect and go. For added flexibility, the **Bluetooth APP** mode lets you start, stop, and monitor charging remotely. Perfect for busy public stations, commercial depots, or home use.

2. Flexible & Durable Design

- **Customizable Cable Length:** The standard **5M cable** can be tailored to your space. Whether it's a compact garage or a large parking lot, we'll adjust the length for hassle - free charging.
- **Compact Control Box:** At **225x95x50mm (HWD)**, our control box saves space while housing robust components. Built to withstand daily use, rain or shine.

Smart Safety & Real - Time Tracking

1. Top - Tier Protection (IP54 Rating)

Our charger boasts an **IP54 rating** – it's dust - proof and splash - resistant. Plus, it includes 10+ safety features: low - voltage, high - voltage, over - current, short - circuit, overload, leakage, low - temperature, high - temperature, lightning, grounding, and emergency stop protection. Your EV and property stay safe, no matter the conditions.

2. Clear Status Updates

With **RGB/LED indicators** and a **digital screen**, you'll always know your charging status. Track speed, detect errors, and monitor progress at a glance. No more guessing – just seamless charging.

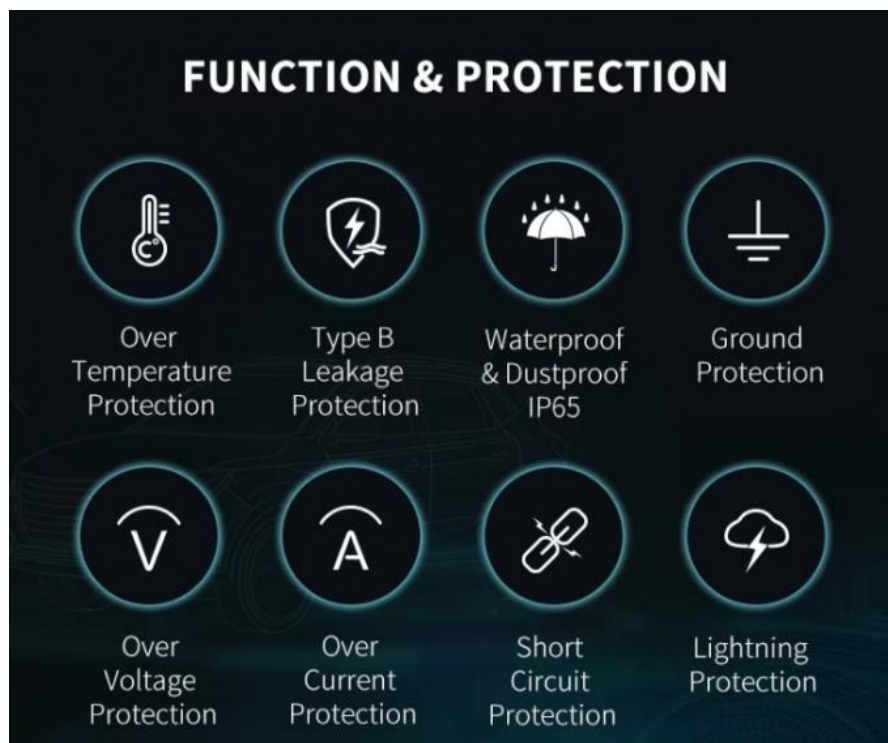

Customize for Your Brand

Stand out in the US market with our **OEM options**:

- **Branded Plugs & Logos:** Add your company's plug designs and logo to boost brand recognition.
- **Tailored Features:** Offer extras like current switching, time - delayed charging, or full - stop charging to meet customer needs.
- **Premium Experience:** Use the screen - displayed charging status to deliver a high - tech, user - friendly service.

Why Choose Our Type 1 Charger?

This isn't just a charger – it's a **US - standard, smart, and adaptable solution** for EV owners and businesses. Whether you're building a charging network, managing a fleet, or selling to retail customers, our product delivers efficiency, safety, and brand value.
