

## Portable Outdoor Power Station with WiFi App Solar Charge Time 7-8 Hours and Operating Temperature -10 ~50

### Our Product Introduction

#### Basic Information

#### Product Specification

- Color: Green + Black
- Warranty: 24 Months
- Solar Charge Time: 7-8 Hours
- Rated Output Voltage: 100V/ 110V/ 120V220V/ 230V240V
- Dc Output: 12V, 10A
- Usb Output: 2 X USB-A (5V, 2.4A), 1 X USB-C (5V, 3A)
- Operating Temperature: -10 ~50
- App: WiFi
- Highlight: Solar Charge Time 7-8 Hours Portable Outdoor Power Station  
, Operating Temperature -10 ~50 Outdoor Power Source  
, WiFi App Portable Power Generator

## Product Description

### Portable Outdoor Power Station with WiFi App & Solar Charging

#### Reliable Power for Outdoor Adventures

This versatile portable power station delivers reliable electricity for camping, hiking, and emergency situations. Engineered to operate in temperatures from -10 to 50 , it withstands diverse weather conditions while powering your essential devices.

#### Key Features

- Multi-voltage AC output (100V-240V) for global compatibility
- 7-8 hour solar charge time for sustainable off-grid power
- 12V/10A DC output for specialized equipment
- WiFi app connectivity for remote monitoring
- Built-in LCD screen and LED flashlight
- Comprehensive safety protections (overcharge, overcurrent, short circuit)
- Lightweight 13.32 lb design with rugged green/black casing
- 24-month warranty for peace of mind

#### Technical Specifications

Color	Green + Black
Warranty	24 Months
Output Voltage	100V/110V/120V/220V/230V/240V
Charging Temperature	0 -45
Solar Charge Time	7-8 Hours
Input Options	AC/DC/USB/Type-C
USB Output	2 × USB-A (5V, 2.4A), 1 × USB-C (5V, 3A)
AC Output	500W

#### Ideal Applications

This power station is perfect for:

- Extended camping and outdoor adventures
- Emergency power during outages
- Remote work sites and outdoor events
- Charging mobile devices and small appliances
- Sustainable solar-powered energy solutions

#### Customization Options

Tailor your power station with these available features:

- WiFi connectivity for app control
- LCD status display and LED flashlight
- Advanced safety protection systems
- 8-hour AC recharge or 14-hour solar panel recharge
