

## Experience Unmatched Visibility with F13 Series LED Car Headlight Bulbs High Power Super Brightness and Durable Housing

### Our Product Introduction

#### Basic Information

- Brand Name: TIANJIN TOEC HUADIAN TECHNOLOGY CO., LTD
- Model Number: HD-YXF-F13-H11/H7

#### Product Specification

- Housing Material: Aviation Aluminum
- Light Source: Auto-class LED Modules
- Input Voltage: DC12-24V
- Start Power: 55W $\pm$ 10%
- Stable Power: 50W $\pm$ 10%
- Lumen: 5000LM
- CCT: 5700K-6500K
- Heat Dissipation Type: High Speed Mute Fan

## Product Description

We usually export large quantities to foreign countries. Hope to find more trade partners.

Introducing the F13 Series LED Headlights – the ultimate combination of HIGH POWER and SUPER-BRIGHTNESS!

With a power of 55W and an impressive luminous flux of 5000LM, these headlights ensure exceptional visibility for your journeys. The housing is crafted from aviation aluminum, guaranteeing durability while enabling efficient heat dissipation through high-speed mute fans.

Equipped with auto-class LED modules and a color temperature ranging from 5700K to 6500K, they provide clear and natural lighting. Designed for DC12 - 24V input voltage, they offer reliable performance with a start power of  $55W \pm 10\%$  and a stable power of  $50W \pm 10\%$ .

Moreover, they comply with EU ECE R10 regulations and come with advantages such as super heat dissipation, auto-class power supply, auto-class level LED chips, and customized high-temperature resistance fans.

Elevate your driving experience with the F13 Series LED headlights today!
