

Portable EV Car Charger IP67 waterproof and dust tight with clear LCD display showing voltage current kWh and temperature

Basic Information

- Brand Name: TIANJIN TOEC HUADIAN TECHNOLOGY CO., LTD
- Model Number: HD-MIDA-PE32S

Product Specification

- Rated Current: 32A
- Terminal Temperature Rise: 50K
- Working Voltage: AC250V
- IP Grade: IP67
- Cable Length: 5 Meter
- Standard Wall Plug: AU/NZ
- Highlight: Portable EV charger IP67 waterproof, EV car charger LCD display, Portable EV charger with warranty

Product Description

We usually export large quantities to foreign countries. Hope to find more trade partners.

Your EV Deserves the Best

Say goodbye to charging anxiety and hello to freedom on the go. The MIDA Portable EV Charger isn't just another accessory—it's your reliable travel companion, engineered for everyday drivers who demand safety, simplicity, and smart functionality.

Built Tough for Real Life

Designed in China, and rigorously tested for global standards, this charger thrives in any environment:

IP67-rated protection keeps dust and water out—rain or shine, it's ready.

Flame-retardant PC housing ensures durability and peace of mind.

Certified by CE, TÜV, and UKCA, so you know it meets the highest safety benchmarks.

Intelligent by Design

More than just power delivery:

Real-time LCD display shows voltage, current, energy consumed, and internal temperature.

Auto-detection system halts charging instantly if a fault is detected.

Delay timer (1–12 hours) lets you schedule charging during off-peak hours—saving you money without lifting a finger.

Plug & Go Simplicity

No installation. No hassle. Just pure convenience:

Fits standard AU/NZ 220–240V outlets—ideal for home, work, or weekend getaways.

5-meter cable offers flexible parking options.

Universal Type 2 connector works seamlessly with most EVs.

Specs That Matter

Max Current: Up to 16A (adjustable: 6A/8A/10A/13A/16A)

Cable Length: 5 m

Whether you're commuting, road-tripping, or just topping up overnight, trust it to keep your journey uninterrupted. Because your EV doesn't just move you—it moves your life forward.
