

EV Charger Adapter TYPE2 J1772 with Robust Power Output 8kW 250VAC 32A Max Current and Wide Operating Temperature Range for Charging

Basic Information

- Brand Name: TIANJIN TOEC HUADIAN TECHNOLOGY CO., LTD
- Model Number: New TYPE2 to J1772

Product Specification

- Rated Current: 32A Max
- Rated Voltage: 250VAC
- IP Grade: IP54
- Power: 8kW
- Work Temp: -30 - +50
- Weight: 0.35kg
- Highlight: TYPE2 J1772 EV charger adapter, 8kW 32A EV charger adapter, 250VAC wide temperature EV adapter

Product Description

We usually export large quantities to foreign countries. Hope to find more trade partners.

Elevate Your EV Charging Experience with Our Premium TYPE2-J1772 Adapter

For electric vehicle owners and repair professionals seeking a reliable, high-performance charging solution, our **TYPE2-J1772 Adapter** stands as the gold standard for seamless compatibility and uncompromising quality. Engineered to bridge Type 2 and J1772 charging interfaces, this adapter is your all-in-one answer for replacement, repair, and everyday EV charging needs.

Unmatched Technical Performance

Built to power your journey, our adapter delivers industry-leading specs that meet the most demanding charging requirements:

Robust Power Output: 8kW charging capacity, paired with 250VAC rated voltage and a 32A max current, enabling fast and efficient charging for your electric vehicle.

Wide Operating Range: Performs flawlessly in temperatures from -30°C to +50°C, making it ideal for all climates and driving conditions.

Durable Build: Weighing just 0.35kg with a compact size of 172.54×74.82×64.69mm, it's portable yet rugged, designed for repeated daily use.

Industry-Leading Safety & Reliability

Your peace of mind is our top priority, and this adapter is engineered with a comprehensive safety suite:

IP54 Waterproof & Dustproof: Shields against harsh outdoor elements, ensuring stable performance rain or shine.

Overheat Protection: Intelligent thermal management prevents overheating, safeguarding both the adapter and your vehicle.

Globally Certified: Backed by CE, UL, ROHS, CSA, FCC, and TUV certifications, it adheres to the strictest international safety and quality standards.

Designed for Versatility & Longevity

Whether you're a professional performing EV repairs or a driver in need of a reliable replacement part, this adapter is crafted for versatility. It comes with a **12-month warranty**, guaranteeing worry-free use and long-term durability. The high-quality materials ensure resistance to wear and tear, making it the perfect companion for both personal and commercial EV charging needs.

Upgrade your EV charging setup today with a adapter that combines precision engineering, unbeatable safety, and universal compatibility. Trust in our TYPE2-J1772 Adapter to keep your electric vehicle powered, protected, and ready for the road—wherever your journey takes you.
