

## Portable EV Car Charger with 16A 220V Output Compatible with Type 2 Electric Vehicles for On the Go Charging Solutions

Our Product Introduction

### Basic Information

- Brand Name: TIANJIN TOEC HUADIAN TECHNOLOGY CO., LTD
- Model Number: 3.5KW Portable EV Charger for Type1

### Product Specification

- Output Power: 3.5kw
- Input Voltage: 200-220V
- IP Rating: IP66
- Voltage: 220V
- Current: 16A
- Highlight: **Portable EV charger Type 2 compatible,  
16A 220V portable car charger,  
On the go EV charging solution**

## Product Description

We usually export large quantities to foreign countries. Hope to find more trade partners.

# The A2 TYPE 2 EV Charging Cable: Your Reliable On-the-Go Charging Partner

For electric vehicle owners who need a dependable, portable charging solution, the **A2 TYPE 2 EV Charging Cable** is the ideal choice. Designed for seamless compatibility with TYPE 2-equipped EVs, this charger delivers consistent performance, robust safety, and unmatched convenience—whether you're at home, at work, or on the road.

### Key Performance & Design

**Efficient Charging:** With a 16A current and 220V input voltage, it provides a steady 3.5kW output, perfect for overnight top-ups or mid-day charging stops.

**Universal TYPE 2 Compatibility:** Seamlessly connects to all TYPE 2-equipped electric vehicles, ensuring broad usability across different makes and models.

**Optimal Length:** The 3.5m cable offers ample reach for most parking and charging setups, giving you the flexibility to charge wherever you need.

**Durable Construction:** Crafted from TPU and copper alloy, it's built to withstand daily wear and tear, while weighing only 2kg for easy portability and storage.

### Uncompromising Safety & Reliability

**IP66 Waterproof Rating:** Fully protected against dust, rain, and splashing water, making it safe for outdoor use in any weather condition.

**Built to Last:** The high-quality TPU and copper alloy construction ensures long-term durability, even with frequent use.

**Consistent Performance:** Designed to operate flawlessly, with a focus on reliability and safety for every charge.

### Your Go-To Charging Solution

Whether you're a daily commuter, a weekend adventurer, or a fleet manager, the A2 TYPE 2 EV Charging Cable offers unmatched convenience and peace of mind. Its compact design and robust safety features make it the ideal choice for anyone who needs a reliable, portable charging solution.

Don't let charging limitations hold you back. Equip your EV with the A2 TYPE 2 Charging Cable and enjoy the freedom to charge anywhere, anytime.
