

Portable EV Car Charger Featuring Robust Durable Build and Thermally Stable Copper Alloy Core for Power Transfer and Daily

Basic Information

- Brand Name: TIANJIN TOEC HUADIAN TECHNOLOGY CO., LTD
- Model Number: 3.5KW Portable EV Charger for Type1

Product Specification

- Output Power: 3.5kw
- Input Voltage: 200-220V
- IP Rating: IP66
- Voltage: 220V
- Current: 16A
- Highlight: Portable EV car charger with durable build,
Portable EV charger with copper alloy core,
Thermally stable EV car charger

Product Description

We usually export large quantities to foreign countries. Hope to find more trade partners.

A2 TYPE 2 EV Charging Cable for Everyday Use

For EV owners and fleet operators who prioritize **reliable, no-nonsense charging** without breaking the bank, the **A2 TYPE 2 EV Charging Cable** is the ultimate workhorse. Designed for consistent daily use, this cable delivers dependable performance, robust safety, and universal compatibility—all at a value that makes sense for your wallet.

Built for the Daily Grind

Steady, Efficient Charging: With a 16A current and 3.5kW output, it provides the perfect balance of speed and reliability for overnight home charging, office top-ups, or fleet maintenance.

Universal TYPE 2 Compatibility: Works seamlessly with all TYPE 2-equipped EVs, so you can use it across your entire fleet or share it with family and friends.

Practical 3.5m Length: Offers just the right reach for most parking spots, eliminating the hassle of repositioning your vehicle to charge.

Durable, Low-Maintenance Build: Crafted from TPU and copper alloy, it resists kinks, abrasions, and daily wear—requiring minimal upkeep for long-term use.

Safety That Doesn't Compromise

IP66 Waterproof & Dustproof: Safe for use in rain, snow, or dusty work environments, so you never have to wait for ideal weather to charge.

Thermally Stable Design: The high-quality copper alloy core ensures efficient power transfer with minimal heat buildup, reducing wear and extending the cable's lifespan.

Trusted Construction: Backed by industry-standard materials and design, this cable is built to meet the demands of daily use without sacrificing safety.

The Smart Choice for Cost-Conscious Users

Whether you're a small business owner managing a fleet, a family with multiple EVs, or a daily commuter, the A2 TYPE 2 Charging Cable offers unbeatable value. It's the reliable, affordable solution that keeps your vehicles powered and your operations running smoothly—without the premium price tag.

Don't overpay for features you don't need. Choose the A2 TYPE 2 Charging Cable and get the performance, safety, and reliability you need, at a price you can afford.
