Charge with Confidence: The A8 Pro TYPE 2 EV Charger – Where Smart Meets Safe

For EV owners who refuse to choose between **intelligent control** and **uncompromising safety**, the **A8 Pro TYPE 2 EV Charger** is the definitive solution. Delivering a steady 3.5kW of AC power, this charger combines customizable performance, universal compatibility, and a fortress of safety features to protect your vehicle, home, and peace of mind.

Smart Charging, Tailored to You

Flexible Power Control: Operating at 200-220V input with a 3.5kW output, the A8 Pro lets you manage your charging speed precisely. Whether you need a slow, gentle top-up or a quicker 16A boost, it adapts to your schedule and electrical needs.

Universal TYPE 2 Compatibility: Seamlessly works with all TYPE 2-equipped electric vehicles, making it the one charger for your entire household or fleet.

Intuitive Status Monitoring: A bright LED indicator strip provides real-time feedback on charging progress and current setting (e.g., 16A), so you're always in the know at a glance.

Fortress of Safety Features

Comprehensive Protection Suite: Engineered with 8 layers of advanced safety:

- **Static & Leakage Protection**
- **Lightning & Overcurrent Protection**
- **Overvoltage & Undervoltage Protection**
- **IP66 Waterproof & Dustproof Rating**
- **Temperature Protection**

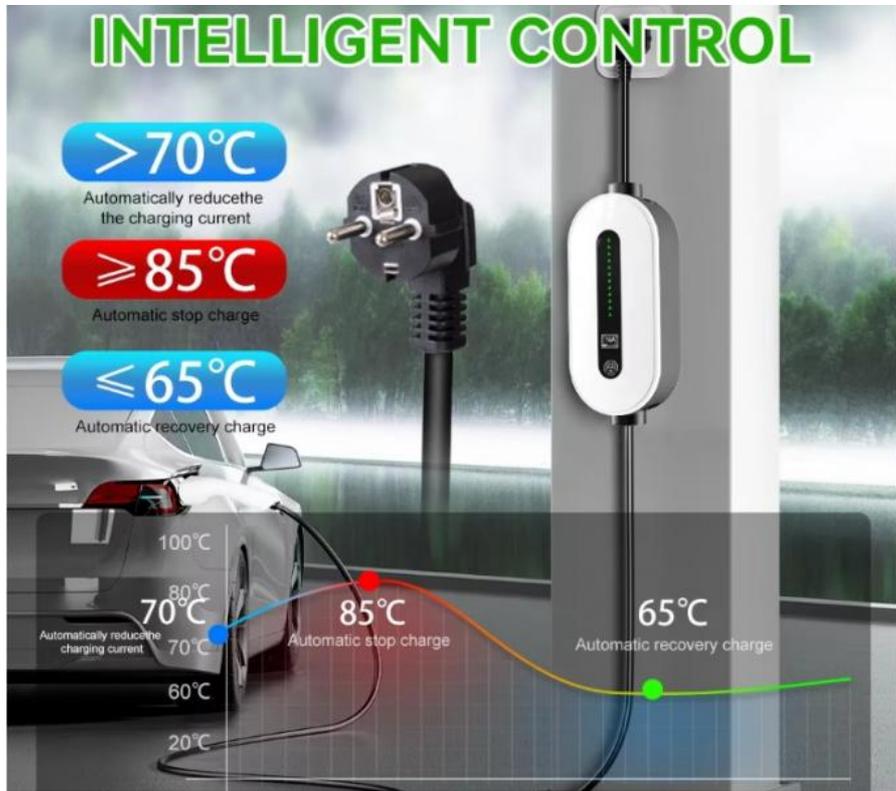

Built to Last: This new-condition charger is constructed with high-grade materials, ensuring it withstands the elements and the test of time, backed by robust safety certifications.

Your Reliable Charging Partner

Whether you're charging at home overnight, topping up at the office, or preparing for a weekend road trip, the A8 Pro provides the perfect balance of smart convenience and ironclad security. It's not just about powering your car—it's about powering it safely, intelligently, and reliably.

Elevate your EV charging experience. Choose the A8 Pro TYPE 2 Charger and drive forward with complete confidence.
